

HASHMAX GUIDELINES

# BITCOIN TRANSACTION

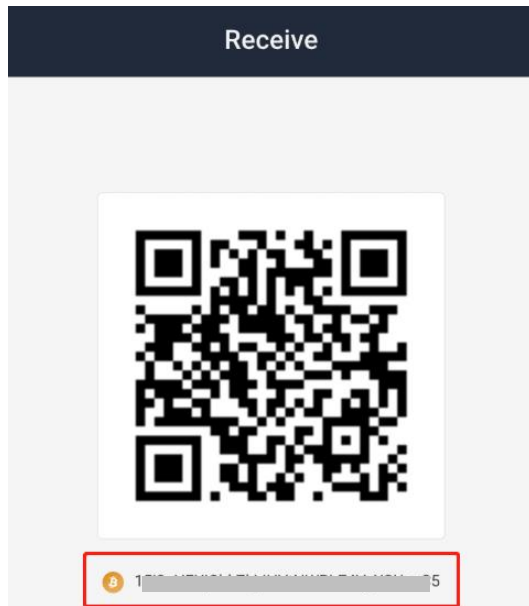

*A TRANSFER OF BITCOINS FROM ONE PARTY TO ANOTHER*

# 1. How to Receive Bitcoin

- 1) Open your wallet APP and select 'Receive'.
- 2) Choose which wallet you want to receive Bitcoin to (make sure you select a BTC wallet).

- 3) Your chosen wallet will generate an address that lets you receive coins. Copy this by tapping the QR code if you're on mobile, or by clicking it if you're on desktop.

- 4) Provide this address to the cryptocurrency exchange or person sending you Bitcoin. Or, if you're in person, the sender can simply scan your wallet QR code with their device.

## 2. How to Send BTC

- 1) Open your wallet APP and select 'Send'.
- 2) Copy and paste the recipient's wallet address into your own wallet APP. Or, if you're in person, select 'Scan QR code' simply scan it with your APP.
- 3) Choose which wallet you want to send Bitcoin from (make sure you select a BTC wallet).
- 4) Enter how much you want to send and select 'Next'.
- 5) Carefully check the details and then click 'Send'.
